JEFF DUNCAN FINDS ROOM IN WAR PAINT
When Jeff Duncan went to his room in the old Cliney property on Jefferson street on Sunday night he thought that the Germans were marching through Belgium again, so great was the disorder he beheld. Drawers, boxes and all possible receptacles had been opened and their contents strewn over the floor. The place had been burglarized. It looked as if the marauders had broken in at all the windows and doors.
But the loss suffered by Mr. Duncan was insignificant in comparison with the surface showing. He missed only two shirts and a revolver. There was a valuable South American Indian blanket which would have been worth carrying away, but the burglars evidently did not know the origin and value of it or else they did not want to burden themselves with loot that might be so easily identified.

THIS IS DR. SCHOLL'S DEMONSTRATION WEEK
AT THE BOSTON STORE
OUR OWN PRACTICEDISTS WILL DEMONSTRATE FOOT COMFORT HERE ALL WEEK

If you are one of the many who experience more or less discomfort from your feet, this is your opportunity. The week from November 17th to 22nd is Dr. Scholl's Demonstration Week, and is being observed all over this country and Canada. It has for its object an intensive effort to demonstrate to the public how useless it is to endure aching, tired and weakened feet in this day of scientific progress.

At the Boston Store, a big demonstration will be in progress throughout the week. Two graduate Practicedists (foot specialists) will conduct the demonstration and will prove to you, beyond any doubt, that your feet can be made absolutely comfortable and as good as new by having them fitted scientifically with the proper Dr. Scholl corrective appliance.

They understand all about feet, their anatomy and mechanics, their troubles and defects and the modern methods of correction and relief. They are graduates of the American School of Practicedists, of Chicago, and their diplomas are exhibited in our window. This very thorough course taught them all about the methods and corrective devices which were invented by Dr. Wm. M. Scholl, the recognized authority of the world in this subject, and which Dr. Scholl uses in obtaining the remarkable results which have made him internationally famous as a foot specialist.

Using the same appliances, made under Dr. Scholl's personal and careful supervision, and following that specialist's methods, as thoroughly learned by them, our Practicedists are equipped to positively assure relief to all who will consult him.

There is no charge whatever for their services. They will examine your stockings, feet, tell you just what your trouble is and demonstrate to your satisfaction that the proper Dr. Scholl appliance will give positive foot comfort. You are under no obligation to buy anything. Their duty is only to show you what relief is possible. The rest is up to your own decision.

Feed Less--But Make What You Feed Count!

Grinding feed means saving feed and saving feed means saving money. You know from your own experience that when feeding whole corn or oats to your stock a large portion of it passes through the intestinal tract undigested.

It has been found that when steers are fed on finely ground corn meal with other concentrates and roughages, they have made a gain of nearly one-half pound more per day than those fed on the same amount of whole grains with an equal amount of concentrates and roughages. Similar results have been secured in feeding calves, pigs and other live stock.

The cost of feeding ground grain can be greatly reduced over what it costs when purchased from a custom grinder if an International feed grinder is used.

A MODERN BURIED TREASURE

(Milwaukee Journal.)
New York—A millionaire of this city bought a lifetime supply of liquor before July 1, and quietly smiled as he pictured a wet oasis in a dry world.

Having enough for immediate need in his wine cellars, he shipped his choice wines, Scotch whiskies and liquors to his country estate in Long Island, with instructions to his gardener, William Bones, to bury the stuff in the ground, somewhere on the estate. Bones buried the chests of treasure on the island, and then he died.

He failed to leave a map and the secret remains buried, like the liquor itself.

The estate is large, and almost anywhere on it these fine autumn days one may run across groups of men energetically attacking the ground with spade and shovel, digging up the earth to reasonable depth, and then going on to another spot.

A reward is certain for the finder. He at least will get a drink.

DESERTED STILL FOUND IN A CAVE

A deserted still in a cave in a remote part of the hills south of Chandler was discovered yesterday by Sheriff Montgomery and Deputy Jim Troutman, the sheriff's office reported early yesterday morning. No arrests were made, the still has been apparently deserted for a number of days.

The outfit consisted of the still, mash and several sacks of corn meal. The cave had been walled up and covered
